

Project: ELCT :: Care2x

Typ (E, C, N)¹: N

Refernce Number: 25

Quickbook interface

Short Description: There must be a interface to the quickbook

Full Description:

This interface is defined through an csv table. There is only an export of data, no data input to the mysql database.

Create a new link that gives the possibility to export the data. Make sure, that the administator can select if there are exporting to Quickbook or the Actan are used in the current clinic.

The date format is dd/mm/yyyy

The number format is 10,000.00 (tsh)

Make sure that there will be an information if there was a exportation of the data. There will be an exportation only once a week.

Just for info: There are acutally 10 hospitals working with Quickbook and approximately 3 hospitals with Actan.

Implementation Remarks:

If there are questions, please contact techdir@arusha.co.tz

Will be realized by:

Estimated Realisation:

Needed till:

¹ C=Change; E=Error; N=New

Date: Freitag, 7. Januar 2005
