

**Project: ELCT :: Care2x**

**Type (E, C, N)<sup>1</sup>: C**

**Reference Number: 33**

**Pharmacy (inpatient drug prescriptions)**

**Short Description: Open the fever chart... note the other task what is related to this topic. This task is only for the prescription field below.**

**Full Description:**

- The nurses entering only the total amount of drugs in the list. (Not writing down the 2x3, they writing down 6 as total amount of tablets)
- The name of the drug will be entered as a plain text; the phonetic search helps the nurse to define exactly the drug. (Alternative check if it's not easier to use a table where the nurse can select each drug instead of the phonetic search)
- For the order: The nurse has to print out a control paper. Following data must be listened:
  - Name of the patient
  - Patient number
  - Name of the drug and dose
  - Total amount of each dose of each drug
  - Field to sign up this sheet by responsible person.

**Implementation Remarks:**

**Will be realized by: MEROTECH**

**Estimated Realisation: 4 days**

**Needed till: 1st of February**
