Type (E, C, N)¹: N

Reference Number: 31

Insurance

Short Description: There must be an administration issue to set up and define the insurances.

Full Description:

Here there are following insurance-schemes:

- Silver (*Betriebskrankenkasse*)
- Gold (*Betriebskrankenkasse*)
- Friedkin (*Staatliche Krankenversicherung*)
- Selian Stuff (*Krankenhausmitarbeiter*)

There must be a form to set up following values:

- Premium for adults (NUMBER)
- Premium for child (NUMBER)
- Premium for senior (NUMBER)
- Co-payment for OPD (NUMBER)
- Co-payment for IPD (NUMBER)
- Ceiling by (i)ndividuals or (f)amilies (RADIOBOX)
- Ceiling amount (NUMBER)
- Ceiling for families with pre-existing condition: (NUMBER)

Implementation Remarks:

Create a new navigation point at the main menu, the name would be 'Insurances'
After that there should be following links

- schemes
 - To administrate the schemes
- Health fund
 - To admit patients to the insurances

Copy the logical scheme out of the old HMIS program.

Will be realized by:

Estimated Realization:

Needed till:

¹ C=Change; E=Error; N=New
