Project: ELCT :: Care2x

Typ (E, C, N)[1]: C

Refernce Number: 6

Barcode

Short Description: The barcode is not used in Selian.

Full Description: Maybe in some years there are barcode readers available. So the good way would be that everytime the barcode lable is shown there are at the moment a transparent gif is placed. If you reavivate the barcode in some years, there is the barcode label still given.

Implementation Remarks: Make a administration item for the administrator. He can now deside if he wants to show the barcode or anyway this transparent gif will be shown. Please go straigly through the hole source code and find the places where the barcode is placed. Make there an if... case and check up if there will be the barcode or the transparent gif placed.

The developers fried will be:
include/care_api_classes/class_gui_person_show.php

line 256:

```
if(file_exists($root_path.'cache/barcodes/pn_'.$pid.'.png')){
...
                }else{
...
                }
```

Will be realized by: MEROTECH
Estimated Realisation: 2 days
Needed till: 1st of February
